Health Sciences

MEDICAL SONOGRAPHY

ABOUT THE PROGRAM

The program educates and trains students to operate special equipment to create images that help physicians assess and diagnose medical conditions and/or assist physicians and surgeons during invasive procedures. It will cover the following specialized areas of sonography: abdominal, breast, obstetric and gynecologic, and pediatric.

CCCC Career Community

Students interested in Health Sciences like to help people feel better. They can work independently, but prefer to work in groups or teams. They are detail-oriented, compassionate, and think critically to solve problems. They work well in stressful situations and do not get queasy around blood or bodily fluids. Graduates find jobs working in medical or wellness environments.
